

# Our "CERTIFIED" InspiEd Partners

*InspiEd Educators is pleased to offer the following products in addition to our "I Think" units and other resources. Contact us today for more information and pricing.*

## Common Core Math

Inspired by Archimedes' moment of discovery, **Common Core Math** is the most comprehensive and rigorously juried K-12 CCSS-based math curriculum in existence today. In fact, the Louisiana Department of Education recognized this innovative product as the only submitted math curriculum demonstrating full alignment with the Common Core State Standards in mathematics! With its unique combination of sequencing, proven teaching methods and extensive online resources, Eureka Math is the best choice for leading students beyond mastery of mathematical concepts:

- Eureka Math is newly developed by educators through the non-profit Common Core, not revised from obsolete resources.
- The program helps teachers convey math knowledge logically and sequentially, following the "story" of mathematics itself.
- Pre-K through 5<sup>th</sup> grade students master the instructional shifts with fluency, application, concept development and debriefing opportunities.
- Middle and High School students focus on problem sets, exploration, Socratic discussion and modeling
- Purchase units separately to strengthen or fill in existing resources, or for use as a full-year curriculum across 5-7 modules per grade.
- Units include all teacher and student materials at an affordable price.

## Let InspiEd Build YOUR Curriculum!

- InspiEd units for Social Studies, ELA and more
- Products from Certified InspiEd Partners
- Levelled libraries w/ Common Core Packs
