

Our "CERTIFIED" [★]InspirEd Partners

InspirEd Educators is pleased to offer the following products in addition to our "I Think" units and other resources. Contact us today for more information and pricing.

OnBoard Academics offers interactive, standards aligned supplemental lessons for K-8 math, ELA and science. Used in over 20,000 classrooms worldwide with interactive whiteboards, computers, iPads and Chromebooks, these teacher created lessons engage learners and make excellent use of technology. OnBoard is proud to be one of only four ELITE publishers for SMART Technologies.

Our "Lesson Locker" subscriptions include over 700 lessons, correlation documents and customizable Wiki Workbooks for a variety of topics. Teachers can easily access lessons that may be used with ANY brand of interactive whiteboard. SMART technology users even have the ability to edit lessons to suit their needs and meet specific learning targets.

We are also pleased to offer our customers Splashtop Classroom to accompany these and other digital products. Splashtop allows teachers to share their desktop and applications. Once connected, students can view, control and annotate over lesson content directly from their mobile device. Splashtop Classroom is perfect for teachers and instructors that want to engage the entire room!
